Library Renewal Project Update

Currently, the Fiscal Year 2018 budget is under consideration in the Senate Appropriations committee. Governor Deal recommended $47 million in bond funding for phase one of the Library Renewal Project. The House retained full project funds in its budget before passing to the Senate for consideration.

This project will transform the Library Complex from a central repository for books and journals, to a space that supports new instructional technologies to further scholarly research. The renewed Library will double the amount of study space for students in both individual and collaborative spaces.
